

Community care.
Academic expertise.
A commitment to your success.

“The patient is at the center of everything we do. Wellforce is creating an environment where primary care physicians thrive by providing support to relieve the burdens of practice — so doctors can focus on their patients.”

Michael Wagner, MD, Chief Physician Executive, Wellforce

Welcome to a healthier system of care.

About Wellforce

- 2,100 physicians and 13,000 employees
- 1,010 beds at 5 hospital campuses—including 4 community campuses, an academic medical center, and a children's hospital
- \$1.7 billion in annual revenue
- 2nd highest case mix index of all MA health systems

Founded in 2014, Wellforce is a bold new health system built for today's changing health care landscape. We bring together the physicians and providers affiliated with Tufts Medical Center, New England Quality Care Alliance, Circle Health/Lowell General Hospital, and MelroseWakefield Healthcare in a partnership that's redefining the practice of medicine in our communities. And we're seeking primary care physicians—like you—who are ready to grow with us.

As an organization driven by the clinician-patient relationship and rooted in the communities we serve, Wellforce is designed to help you thrive. Join one of our collaborative, clinically renowned teams, and you'll provide local care backed by smart resources, strong academic alignment, and the support you need to deliver care the way you want. That's our promise to you.

Join a different kind of health system designed for a different kind of primary care physician. **You.**

Whether you're a well-established clinician or in the early stages of your career, making a move to a new health system is a big opportunity—and a big decision. Here's why Wellforce is the right choice for you.

Empowering you to make an impact.

Wellforce is a strong system because of our practices and providers. We set organization-wide goals and provide the resources to reach them—empowering our local teams to use their expertise to develop the best solutions for patients. We create an environment that helps you succeed by:

- Removing barriers so you can focus on your patients and your life
- Providing opportunities to connect with your clinical and personal passions
- Offering competitive compensation and benefits in a high-performing value network

The support you need, when you need it.

Providers and administrators from across the system regularly meet to discuss what primary care physicians need today, tomorrow, and in the next 10 years. All to develop tangible ways to reduce your administrative burden and embrace your interests, such as:

- Robust onboarding and mentorship programs
- Extensive and ongoing EMR training
- Documentation support, such as scribes and voice recognition assistance
- Population health management
- Case management
- Behavioral health initiatives

Choose how—and where—you want

to practice.

If you're looking for an organization that shares your commitment to community care while offering the resources of a renowned academic medical center—all in a high-quality, lower-cost network—then Wellforce is for you. We'll help you find the right fit among our diverse primary care practice options. Small or large. City or suburbs. Academic or community setting. Employed or private practice model. The choice is yours.

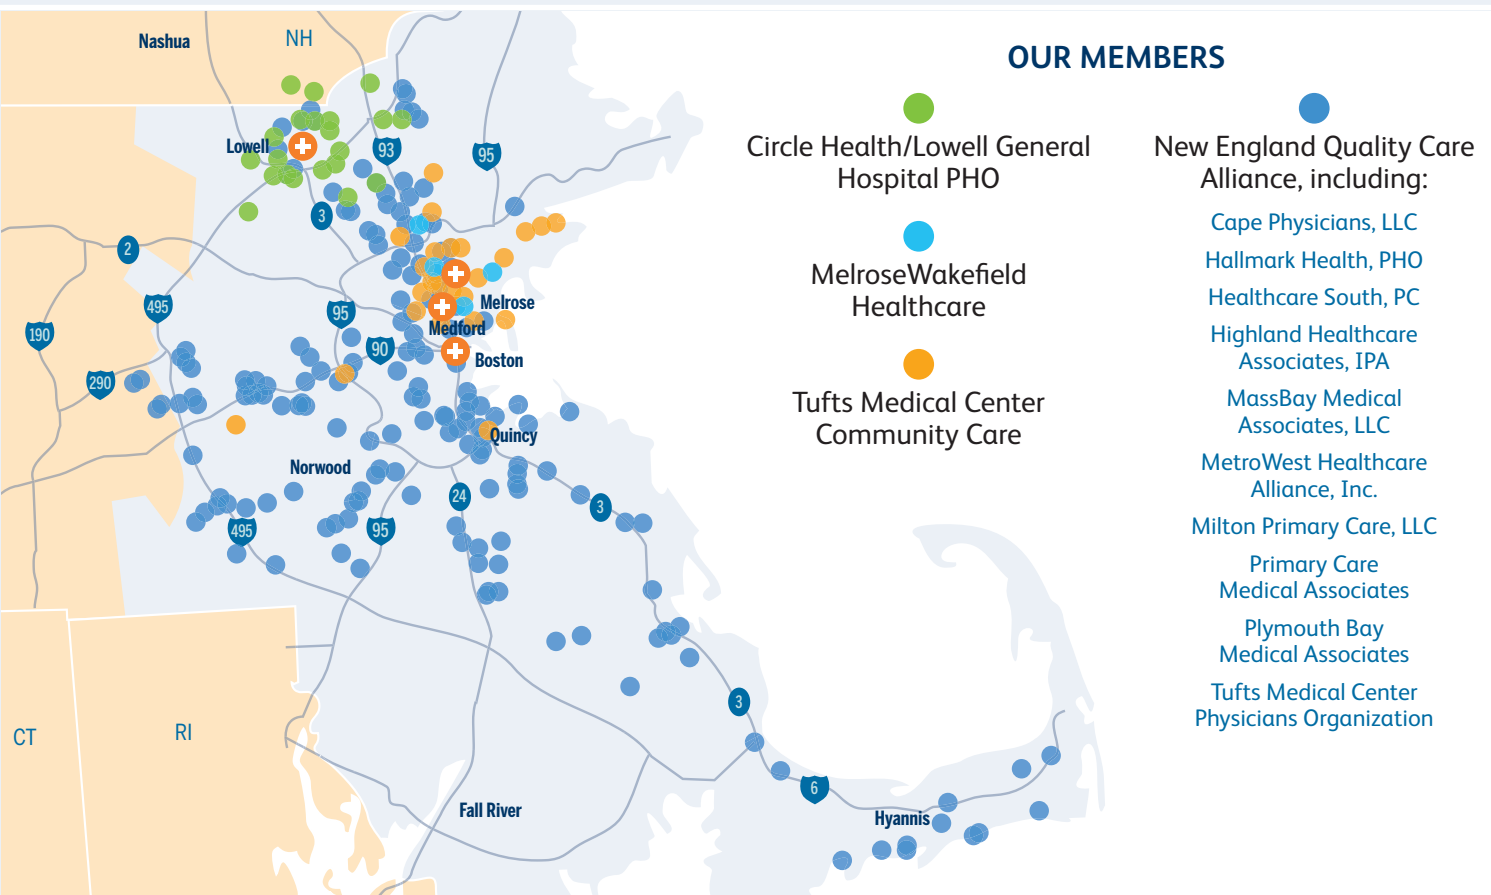

Make a difference for your patients and your community.
